Emergency LED Indicator Notch

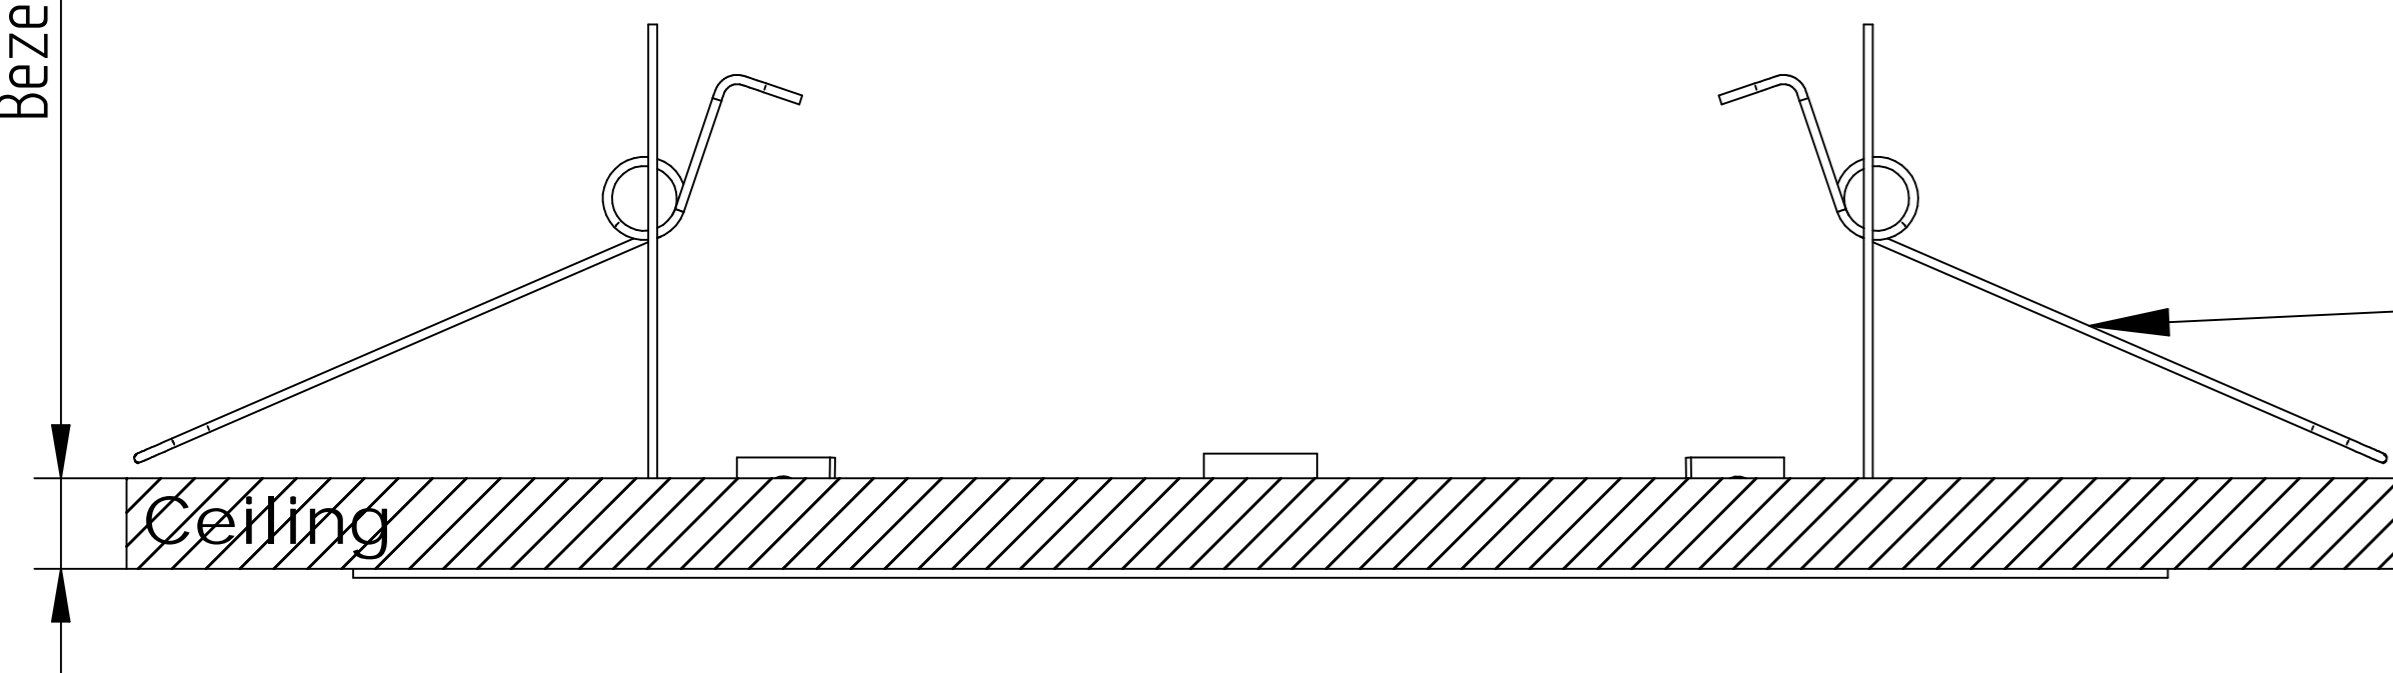

Step 1 - Ensure that the hole trying to cover is within the the Minimum and Maximum Range

Step 2 - Fold 4 tabs as shown to centre the bezel in the hole there are a number of different easy folds for different diameters select bend closest to your hole size

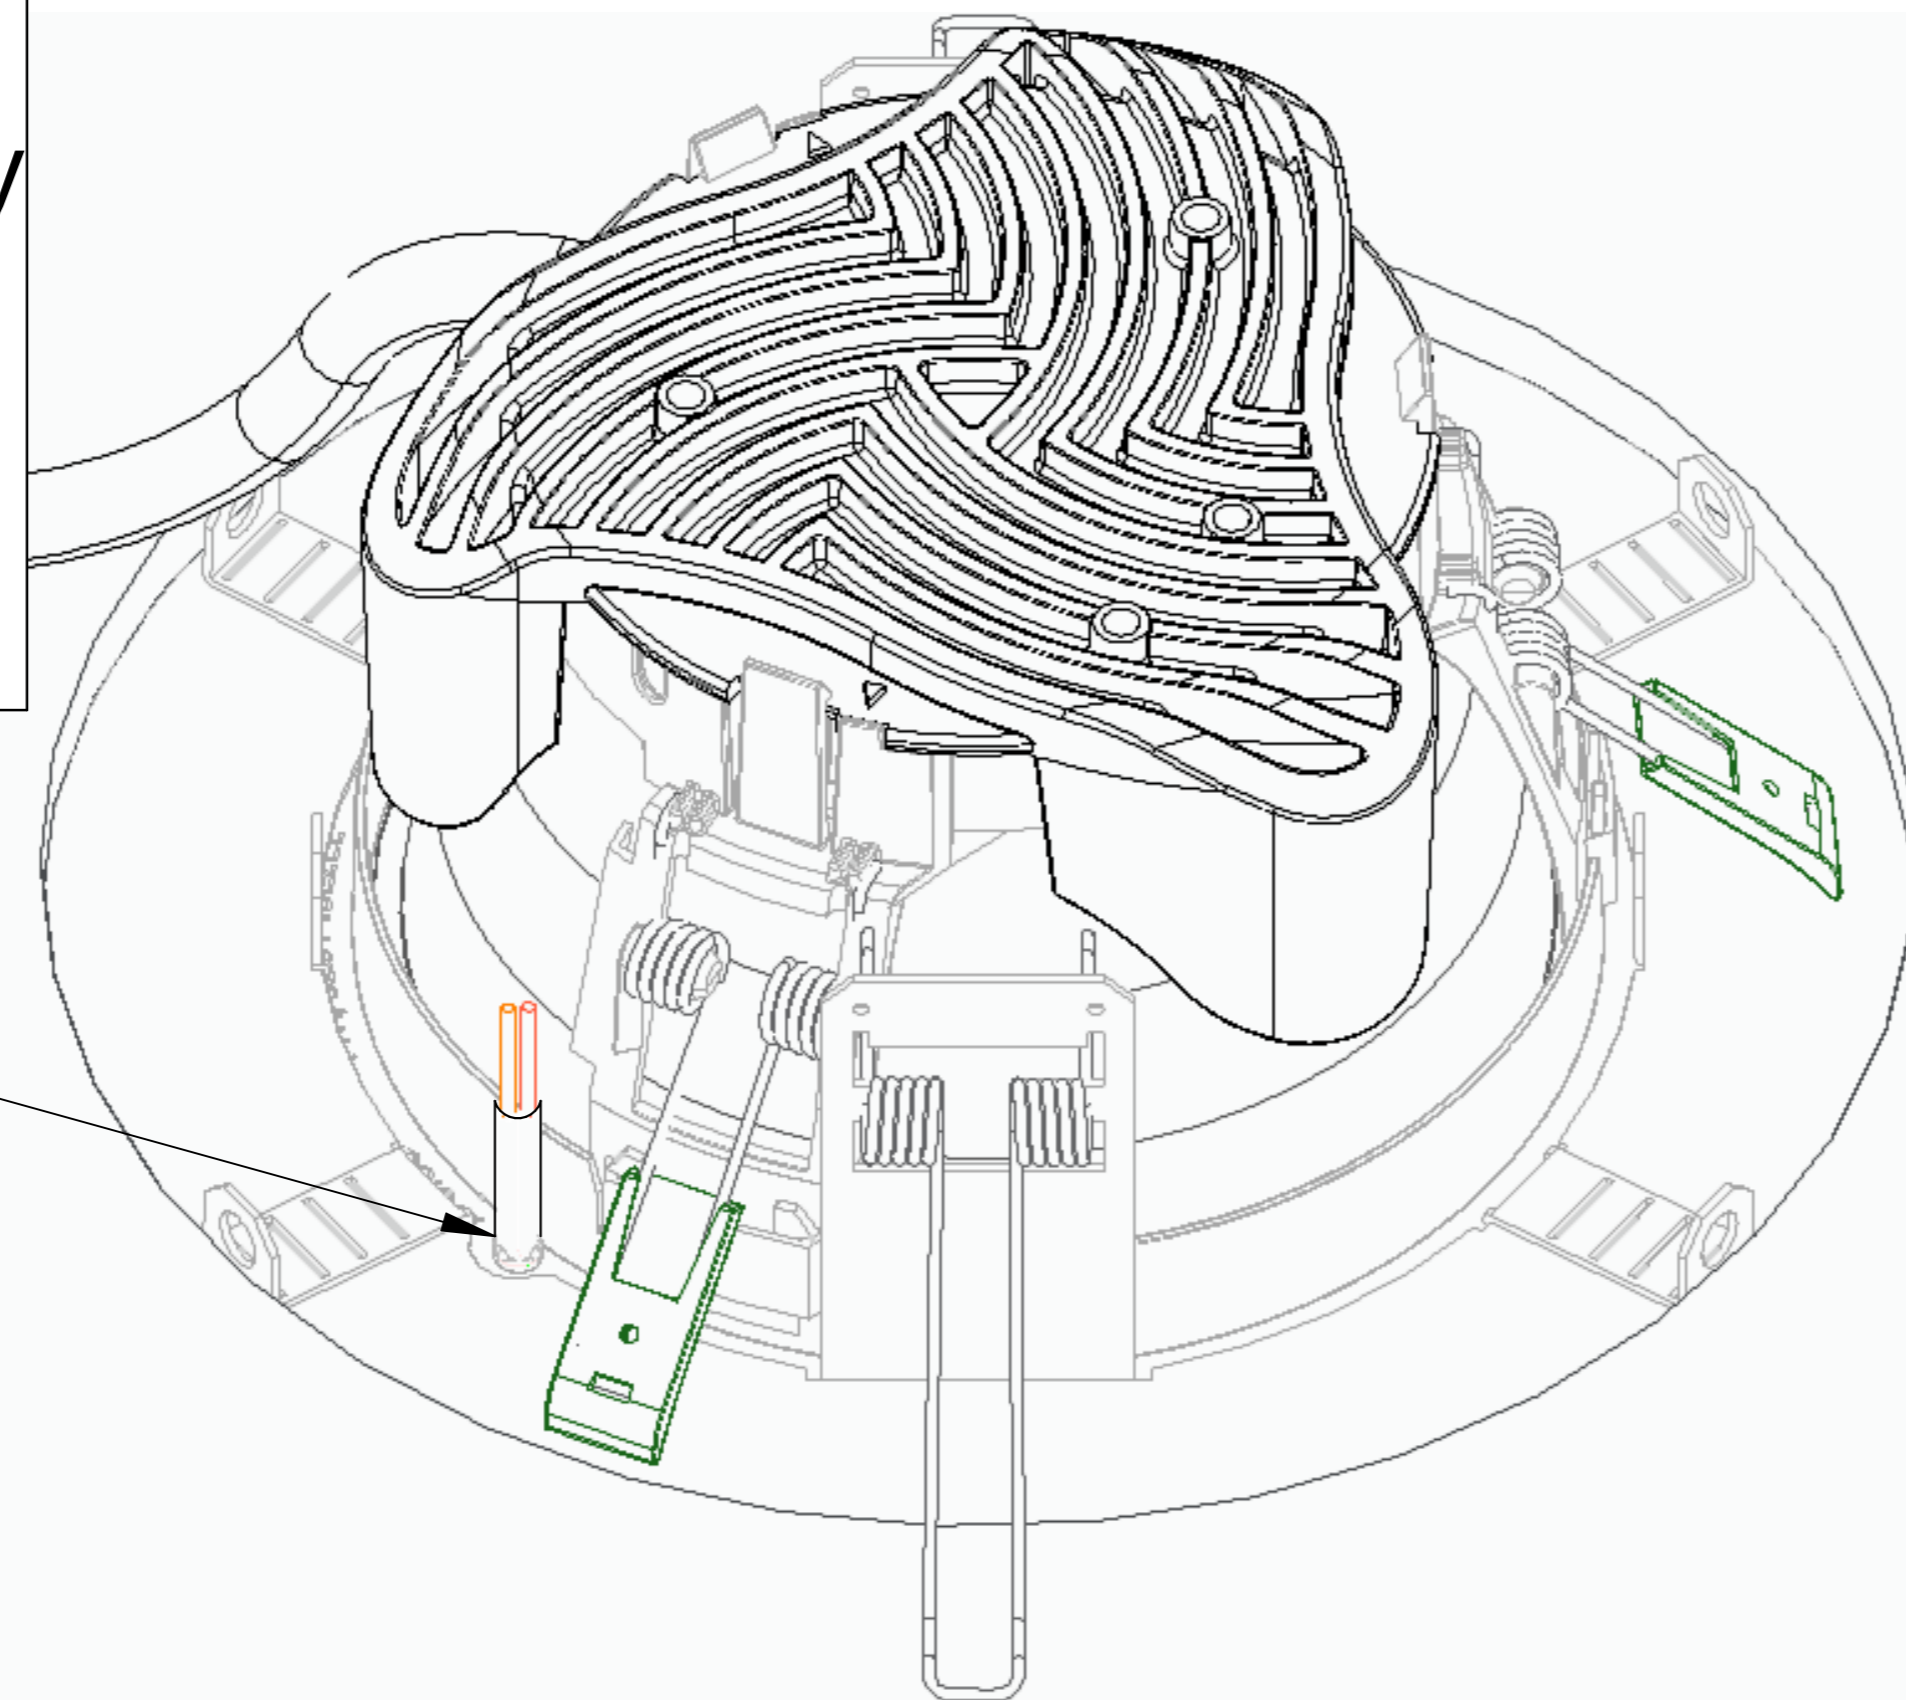

Step 3 - Fold back the springs on the retro fit bezel and place them through the ceiling void and release so that the bezel is held up against the ceiling

10-40mm  
Bezel Fixing Range

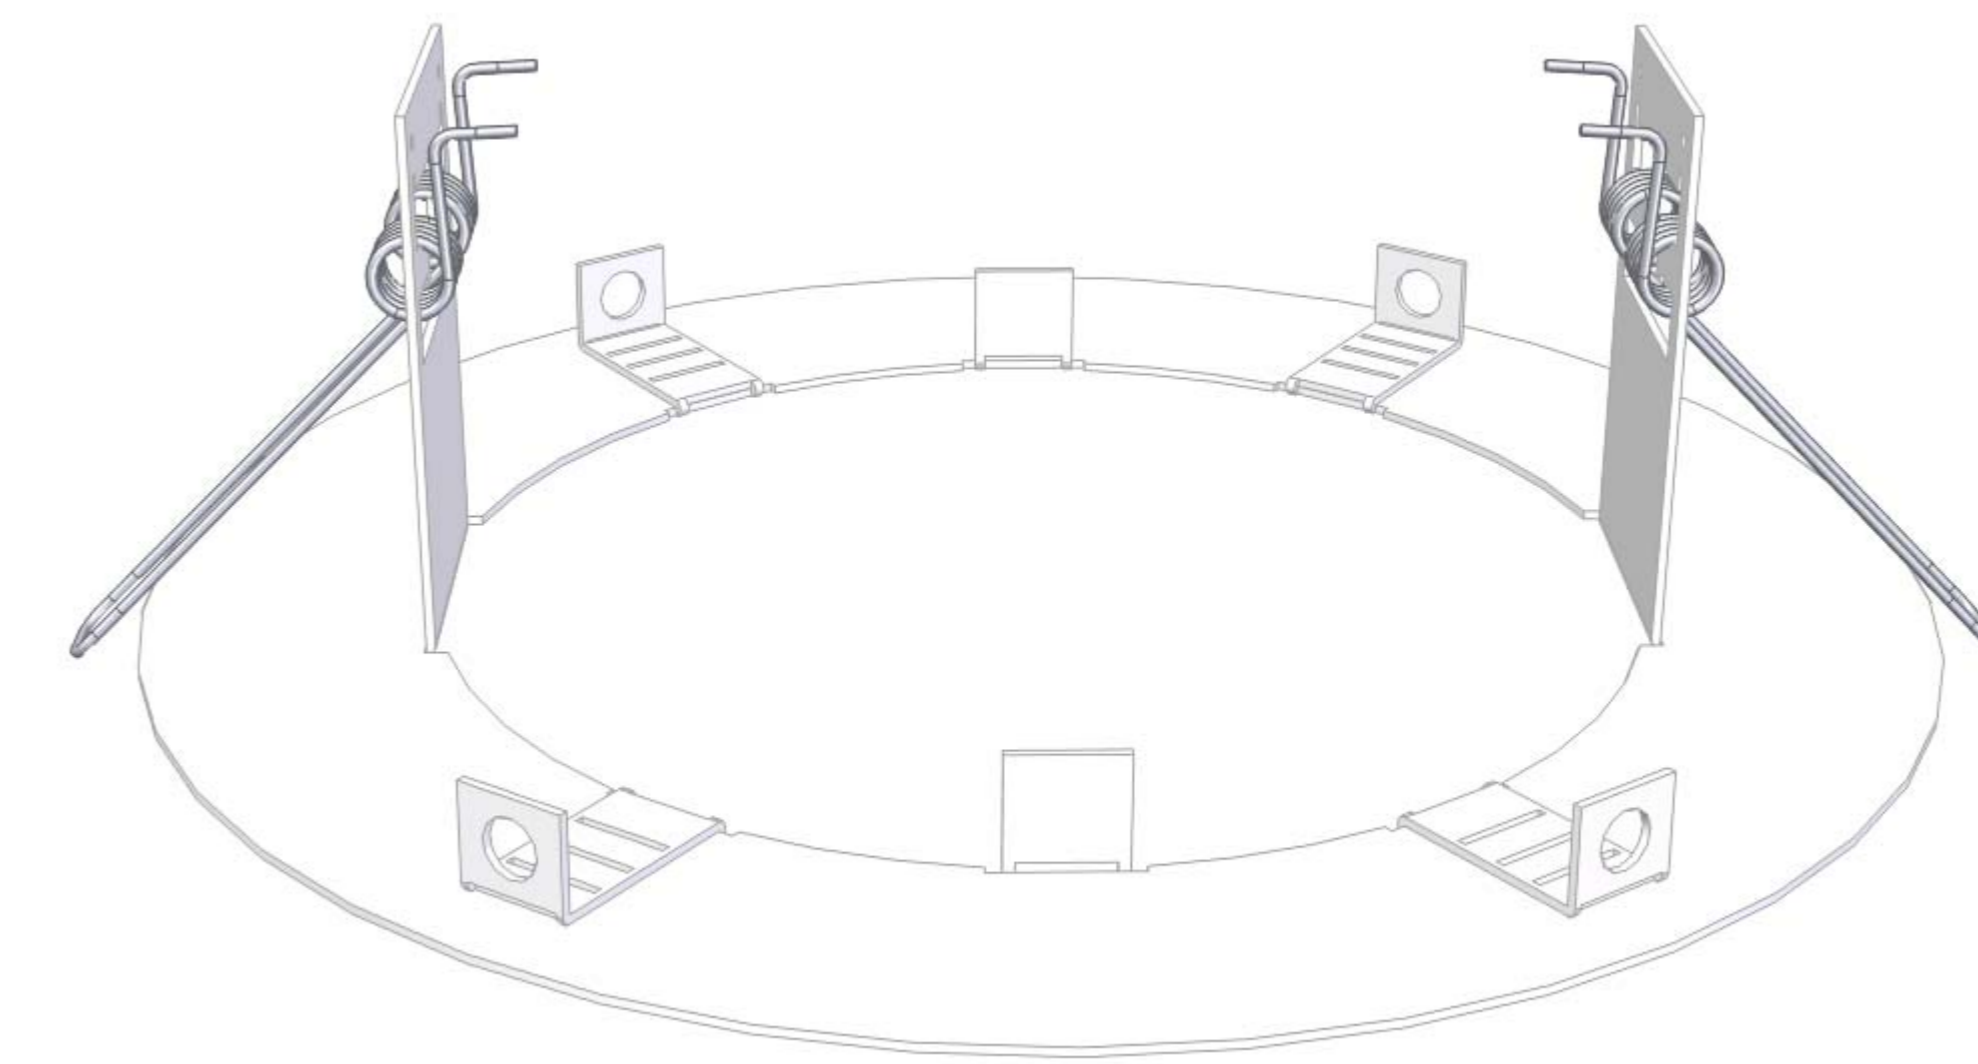

Step 4 - Wire up the driver from the product through the aperture, then install the fitting by bending up the springs and instering them into the void at 90 degrees from the retro fit bezel springs and releasing the product so that it pulls up to the ceiling.

Align Emergency LED Indicator with Notch
