Selene 2 Suspended

Modular linear luminaire for standalone and continuous suspended mounting

Selene 2 Suspended Standalone Organic Response, white

Selene 2 Suspended Continuous Organic Response

Selene 2 Suspended Standalone Organic Response, silver

Overview

Selene 2 delivers a low energy solution in a sleek and seamless upgradeable body with 100% recycled end caps. Selene 2 is an affordable solution which is equally at home in an education or commercial environment, offering a quadraprism optic for controlled diffusion of light in an IP44 rated body as standard. Uplight versions feature double sided boards which reduces the FR4 material and minimises embodied carbon.

Optics

- Nominal outputs (4000K) 65/35% down/uplight
 - o 3800 lumens (28W)
 - 4700 lumens (35W)
 - o 5700 lumens (41W)
- Nominal Outputs (4000K) 100% downlight
 - o 2600 lumens (20W)
 - o 3200 lumens (22W)
 - o 3800 lumens (27W)
- Emergency Output:
 - o All 4000K variants 319 lumens
- · Direct/indirect or downlight only
- Available with 3000K and 4000K LED
- · Quadraprism optic for controlled diffusion of light with all round glare control

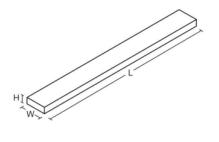

Body

- Slim fabricated sheet steel body finished in white (RAL 9003) or silver
- 100% pre-consumer recycled end caps
- IP44 rated
- 2 into 1 point wire suspension kit with 2m maximum drop (supplied separately)
- One suspension kit is needed per luminaire
- One suspension kit is needed for every infill 1200mm or over
- Infills cannot be used at the end of a continuous run
- For standalone or continuous installation
- Continuous luminaires must be installed with an infill mounted between them
- Standalone versions supplied with end caps
- Continuous versions end caps to be ordered separately
- Suspensions to be ordered separately
- · Integrated through wiring as standard on continuous luminaires (no provision for on-site services), including infills
- Optional integral Organic Response® wireless sensor that communicates with its neighbouring luminaires, automatically controlling light across the area
- Air Control enabled option (requires remote detector)
- Choice of 3hr standard or COMEPS addressable test emergency options
- Also available with 'EW' Routefinder Wireless for addressable emergency testing without the need for a 2 core communication cable
- · COMEPS can be configured as Easytest if required
- Emergency variants are supplied with Lithium Ion Phosphate (LiFeP04) batteries

Notes:

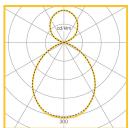

- All DALI variants require 1 DALI address per driver. COMEPS variants will require an additional DALI address.
- Integral detectors require commissioning. Please contact Whitecroft Technical Desk.

Dimensions

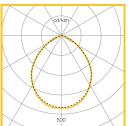

VERSION	L	W	Н	KG	KG(EM)	FC
3800 lumen Standalone Luminaire	1322	210	68	7.1	7.6	1243
