

# Florence Elite

Low profile IP40 direct/indirect bedhead luminaire

## Overview

A dedicated bed head ward solution with combined up/downlighter delivers various lighting scenes from nursing care to night-time observation.

## Optics

- Light source options:
  - LED 3000 lumens 25W\* uplight (ward lighting)
  - LED 1500 lumens 18.5W\* downlight (reading/nursing care)

\*Total power consumption including driver

- Uplight - wide integrated reflectors to maximise efficiency
- Downlight - Nano prism diffuser for maximum patient comfort
- Both the ward and reading light sources are independently dimmable by "push control" so the following lighting levels can be selected to meet LG2 requirements:
  - Patient rest 30-50 Lux
  - Watch light 15-20 Lux
  - Reading 300 Lux
  - General nursing care 300 Lux
- LED version requires DALI input unit & onsite commissioning
- LED version 4000K "Cool White"

# Body

- IP40
- RAL Colour: White RAL9003.
- Extruded aluminium spine & ‘push on’ moulded end caps
- One piece membrane diffuser for maximum infection control
- Wall mounted, recommended mounting height 2m for typical 2.6m-3m ceiling heights
- 1st fix wall bracket, pre-wired to GST 18/4 flying leads For other connector requirements please contact the Technical Desk
- No visible screws and easy/cleaning access to the top of the luminaire
