

Custom Made

From bespoke builds to intelligent upgrades.

You specify. We create.

Whether you're starting from a blank page, need a precise modification, or a sustainable relight, we design around your brief.

Bespoke

Made for projects that demand more.

We design and manufacture bespoke luminaires tailored to your architecture, aesthetic and performance requirements. From statement features to integrated lighting solutions, every element is engineered to fit your brief.

Unique geometries
and dimensions

Custom finishes
and materials

Specialist optics
and performance

Collaborative lighting
design and prototyping

Modify

Refined to
your needs.

We adapt our existing lighting ranges to meet your project requirements - adjusting lengths, widths, corners, finishes or outputs while retaining proven performance and compliance.

Extended or reduced lengths

Alternative installation
requirements

Colour and finish changes

Colour and finish changes

ReLight

Upgrade. Don't replace.

We upgrade existing fluorescent luminaires - ours or other manufacturers' - to high performance LED technology. The result is improved efficiency, reduced embodied carbon and extended life for your installed lighting infrastructure.

LED conversion of existing fittings

Reduced embodied carbon and waste

Minimal disruption during installation

Improved efficiency and compliance

Our five-step custom lighting process.

1. Define

We explore your lighting brief, constraints and ambitions.

2. Design

Concept sketches and technical validation for your bespoke luminaire or adapted solution.

3. Develop

Prototypes, photometric testing and performance refinement.

4. Deliver

UK-based manufacture of your custom lighting solution with full quality assurance.

5. Support

Ongoing technical support and post-installation assistance.

Custom made, in action.
