

DALI addressable PIR detector/photocell

> weblink > **COMDRD**

The Multisensor is a compact unit containing the necessary sensors to provide energy saving functions. It has constant light sensor, a passive infra-red detector (PIR) and an infra-red receiver for the Infrared Remote.

- Designed to push fit into a ceiling or luminaire housing.
- Programmable constant light
- Presence detection
- Control using the hand held remote.
- Switch-Control input
- DALI power consumption 15mA

DIMENSIONS

DALI switch input unit

> weblink > **COMDSIU**

Switch Input Unit is designed to allow customer specified switches, sensors, time clocks or other on/off control devices to be incorporated into a Whitecroft DALI lighting control system. The Switch input Unit is suitable for inclusion into all standard size back boxes together with a suitable mains rated switch.

- Touch dimming with a momentary push switch
- Can be used with momentary or latching switches
- Can be used with COMRE or COMRG for switching with microwave detector
- DALI power consumption 10mA
