

esprit MRI

Healthcare: Downlighter for MRI scanning rooms

Esprit MRI is a mains voltage downlighter for MRI scanning rooms. Lighting in this environment must not have ferrous components because of the powerful magnets used in the scanner. Also, electrical equipment in these areas must not produce any interference.

APPLICATION

- Hospital MRI scanning rooms
- Research areas where powerful magnetic fields may be present and are being measured

SPECIFICATION

- One piece assembly with precision moulded bezel
- Only non-ferrous materials are used in the construction
- Anodised aluminium reflector
- 75W Osram Halolux E27 base tungsten halogen lamp included
- User friendly rapid fix push down straps with 3 point location
