

ORBIT Gimbal Range Introduction

The Orbit Gimbal recessed directional cluster spotlight is now available.

Orbit Gimbal offers a simple but effective method of creating accented lighting for retail and other areas requiring feature lighting. Its simple design allows easy concealment through cut apertures into most voids.

The Gimbal range consists of single, twin, triple, quad - linear and quad-square recessed directional reflector assemblies with a common body style. Luminaires are offered with 35w or 70w CDM-T lamps and gear. Spot, medium or flood reflector beam angles are available to offer a broad range of accent lighting effects.

SPECIFICATION

Finish:

Frame & Gimbals - silver 30% gloss polyester powder-coat.
Canopy - black 30% gloss polyester powder-coat.

Materials:
