

Infinity

MOTIVATION

Infinity - This adjustable asymmetric projector provides a discrete but flexible capability to illuminate large areas of ceiling, facades and general open spaces from wall, floor and pedestal mounting positions. Its soft floodlighting distribution makes it ideal for both direct and indirect use, whilst its stylish design and IP65 rating lends it to numerous interior and exterior architectural situations.

APPLICATION

- Retail
- Airport facilities
- Museums
- Interior facades
- Reception areas
- Feature staircases
