

iTrack spine

spine for luminaire integration

iTrack Spine has been developed to integrate market leading products Aerial, ACF Duralite, ACF DuraLED, Stiletto Five and Stiletto LED onto the iTrack solution. The spine can be supplied as a single item for you to convert small quantities of luminaires on site, or can be supplied complete with luminaire ready for installation onto iTrack (subject to quantities).

Should you require other specific products to be supplied with a spine for integration onto iTrack, please contact our sales office.
