

Mirage MD24, MDD24

Range Modifications

WHEN QUALITY MATTERS

Retention Ring - MD24 / MD20

(Release date: Sept 1st 2001)

Retention ring on Diamond faceted versions is to be manufactured in dark grey as standard. Silver rings will no longer be available.

Note: This change is also applicable to the MD20 range.

MD24 - IP44 Version

(Release date: June 1st 2001)

Product has been increased in height and utilises the Cat2 plain silver reflector, replacing the diamond faceted.

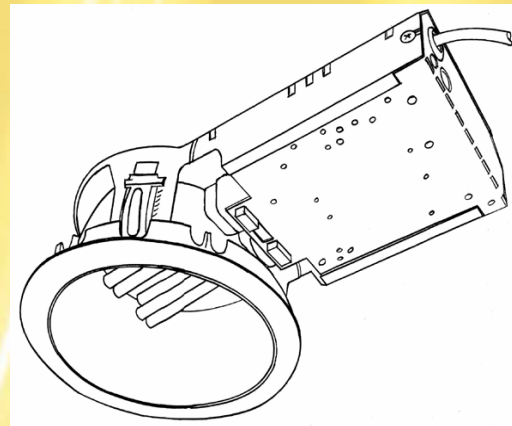

- Increased height of plain reflector (172mm) makes all lamp and gear options available with IP44.
- Diamond faceted reflector no longer available for IP44.
- Emergency gear remains as remote.

Order Codes - Opal polycarbonate IP44.

MD24-218P/IP44	MD24-218PH/IP44
MD24-226P/IP44	MD24-226PH/IP44
MD24-218PE3/IP44	MD24-218PHE3/IP44
MD24-226PE3/IP44	MD24-226PHE3/IP44

For clear IP44 cover add suffix **C** to end of part code.

Eg. MD24-118P/IP44C

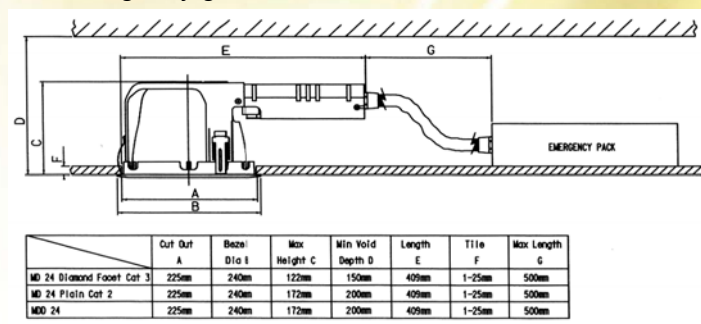

MD24/MDD24 - Gearbox

(Release date: June 1st 2001)

MD24/MDD24 gearbox has now been standardised to accept all gear types internally. This removes the need for remote gearbox and short head on dimmable and MDD24 versions.

- Construction has changed – folded Zintec replaces aluminium extrusion.
- Emergency gear remains as remote.
