

LDR 100 & 200

MOTIVATION

LDR100

The Micro downlighter LDR100 is a classically simple design of low voltage downlights manufactured from quality materials.

LDR200

LDR200 complements LDR100 but has a larger diameter bezel (120mm) and a unique 'Click Catch' lamp access system. This allows the central bezel to be pushed upwards to disengage automatically for access to the lamp.

Anti-glare baffle

To limit direct view of a dichroic lamp at high angles the anti-glare baffle can be easily fitted to the LDR200# and LDR300# downlighters. The baffle is manufactured from extruded aluminium and finished Polyester matt black.
