

LDR 370, 380, & 390

MOTIVATION

LDR370 A flush modular wallwasher is ideally suited where discreet low glare lighting is required. Controllable through 355°.	LDR380 A traditional eyeball downlighter with simple adjustment through 355° rotation and 32° tilt. The eyeball is held in the inner body so installation in horizontal, vertical or an angled surface is possible. The 'Click-Catch' system provides easy access to the lamp.	LDR390 Designed for ambient downlighting LDR390 has a recessed dome which is illuminated by otherwise wasted light. This does not affect beam performance but emphasises the light source giving a greater impression of light output.

SPECIFICATION

- Lamps – 20W, 35W or 50W dichroic low voltage GX/GU5.3 lamp base
- Body – precision die cast aluminium
- LDR374: Rotates through 355°
- LDR380: Rotates through 355° & eyeball tilt through 32°
- 240V/12V remote transformer required (specify separately)
- Ceiling retention by spring mechanism
- For ceiling thickness – 0.7mm to 25mm
- Terminal cover to meet IEE wiring regulations
- Supplied without lamp
- Quick release lamp change

Options

Transformers – 240V/12V remote Whitecroft transformers see page 174
