

Perimaliter

MOTIVATION

Perimaliter has been designed specifically for lighting building perimeters economically. Its vandal resistant injection moulded polycarbonate refractor enables a wide spacing between luminaires whilst minimising glare.

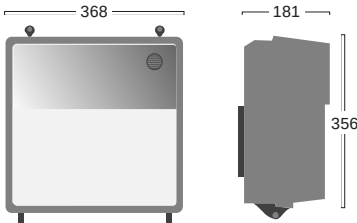

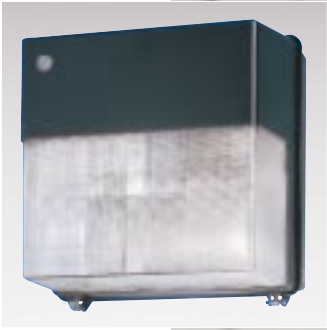

APPLICATION

- Security lighting
- Building perimeters
- Walkways and paths
- Car parks
- Subways and tunnels
- Industrial storage areas

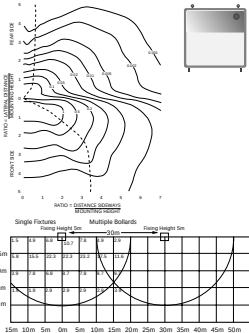

SPECIFICATION

- High pressure sodium or metal halide lamp options
- IP55 protection
- Cast aluminium housing
- UV stabilised polycarbonate moulded refractor
- Hinged refractor for ease of lamp change
- Through wiring compartment and side cable entries
- Polyester powder paint finish in bronze
- Post top mounting option
- Integral photocell option
- Single and twin post top mount accessory
- Supplied with lamp

For column mounting arrangements and accessories see pages 231-233
