Piccola
Interior way guidance LED's

Piccola

MOTIVATION

Piccola is designed to exploit the innovative LED source within a discrete but attractive range of luminaires. The low heat generation, long life, high impact resistance and low energy consumption makes Piccola a perfect option where conventional luminaires may be less than ideal. Piccola can be used to highlight or indicate features in the room or for purely aesthetic purposes to create points of interest.

APPLICATION

Way guidance to indicate

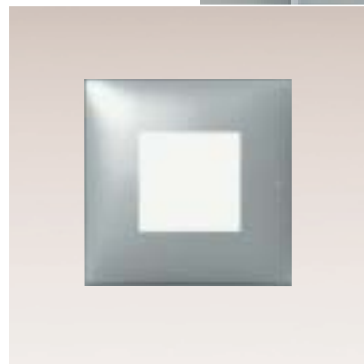

- Light switch positions
- Door positions
- Stairways

Decorative

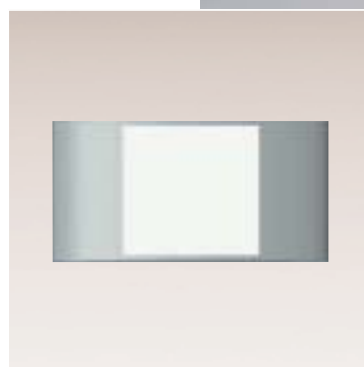

- Reception areas
- Boardrooms
