

Whitecroft Lighting Ceiling Compatibility.

Exposed T Grid - T25 Lay in (A) type ceilings.

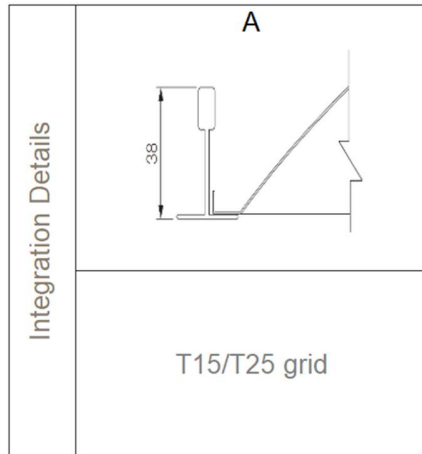

Integration details diagram for **Exposed T Grid - T25 Lay in (A)** type ceiling.

- Cascade Flex (XT) Including Vitality & Tunable White can be used with T25 Lay in (A) type of Exposed T Grid ceiling.
- CityEdge can be used with T25 Lay in (A) type of Exposed T Grid ceiling.
NB: On application - contact Whitecroft Technical.
- Duo3 Evo can be used with T25 Lay in (A) type of Exposed T Grid ceiling.
- Helm can be used with T25 Lay in (A) type of Exposed T Grid ceiling.
NB: Grid will need setting up specifically for the luminaires.
- Life P LED can be used with T25 Lay in (A) type of Exposed T Grid ceiling.
- Tegan Including Tunable White can be used with T25 Lay in (A) type of Exposed T Grid ceiling.
- Tegan Line can be used with T25 Lay in (A) type of Exposed T Grid ceiling.
- Tegan 2 can be used with T25 Lay in (A) type of Exposed T Grid ceiling.

Exposed T Grid - T15 Lay (A) in type ceiling.

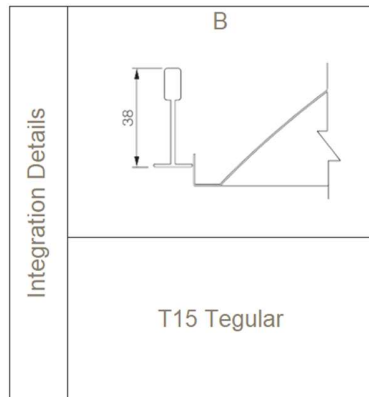

Integration details diagram for **Exposed T Grid - T15 Lay** in (A) type ceiling.

- CityEdge can be used with T15 Lay in (A) type of Exposed T Grid ceiling.
NB: On application - contact Whitecroft Technical.
- Duo3 Evo can be used with T15 Lay in (A) type of Exposed T Grid ceiling.
- Helm can be used with T15 Lay in (A) type of Exposed T Grid ceiling.
NB: Grid will need setting up specifically for the luminaires.
- Life P LED can be used with T15 Lay in (A) type of Exposed T Grid ceiling.
- Tegan Including Tunable White can be used with T15 Lay in (A) type of Exposed T Grid ceiling.
- Tegan Line can be used with T15 Lay in (A) type of Exposed T Grid ceiling.
- Tegan 2 can be used with T15 Lay in (A) type of Exposed T Grid ceiling.

Exposed T Grid - T15 Tegular type ceiling (B)

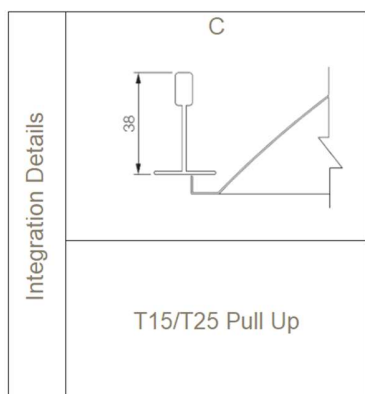

Integration details diagram for **Exposed T Grid - T15 Tegular (B)** type ceiling.

- Cascade Flex (XT)
Including Vitality & Tunable White can be used with T15 Tegular (B) type of Exposed T Grid ceiling.
- CityEdge can be used with T15 Tegular (B) type of Exposed T Grid ceiling.
NB: On application - contact Whitecroft Technical.

Exposed T Grid - T15/T25 Pull Up (C)

Integration details diagram for **Exposed T Grid - T15/T25 Pull Up (C)** type ceiling.

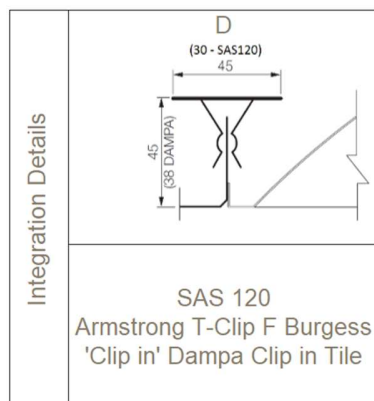

- Avenue/Avenue Metro (recessed) can be used with T15/T25 Pull Up (C) type of Exposed T Grid ceiling.
NB: Grid will need setting up specifically for the luminaires.
- Avenue Micro (recessed) can be used with T15/T25 Pull Up (C) type of Exposed T Grid ceiling. NB: Grid will need setting up specifically for the luminaires.
- DTFA Elite (600x600) can be used with T15/T25 Pull Up (C) type of Exposed T Grid ceiling. NB: T25 only – contact Whitecroft Technical for T15 application.
- DTFA Elite (300x1200 & 600x1200)
DTFA Theatre can be used with T15/T25 Pull Up (C) type of Exposed T Grid ceiling. NB: T25 only – contact Whitecroft Technical for T15 application.
- DTFU (600x600) can be used with T15/T25 Pull Up (C) type of Exposed T Grid ceiling.
NB: T25 only – contact Whitecroft Technical for T15 application.
- DTFU (300x1200 & 600x1200) can be used with T15/T25 Pull Up (C) type of Exposed T Grid ceiling.
NB: T25 only – contact Whitecroft Technical for T15 application.
- HDU LED (Modular) can be used with T15/T25 Pull Up (C) type of Exposed T Grid ceiling.
NB: T25 only – contact Whitecroft Technical for T15 application.
- Helm can be used with T15/T25 Pull Up (C) type of Exposed T Grid ceiling. NB: Additional support bracket kit required.
- Hygiene LED can be used with T15/T25 Pull Up (C) type of Exposed T Grid ceiling.
- Lister2 can be used with T15/T25 Pull Up (C) type of Exposed T Grid ceiling.

NB: T25 only – contact Whitecroft Technical for T15 application.

- Lister can be used with T15/T25 Pull Up (C) type of Exposed T Grid ceiling.
NB: T25 only – contact Whitecroft Technical for T15 application.

Spring T Grids - SAS 120 (D)

Integration details diagram for **Spring T Grids - SAS 120 (D)** type ceiling.

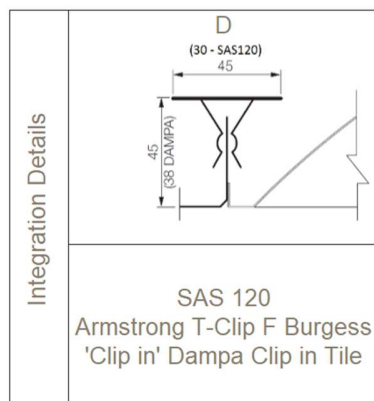

- Cascade Flex (ST)
Vitality & Tunable White can be used with SAS 120 (D) type of Spring T Grids ceiling.
- CityEdge can be used with SAS 120 (D) type of Spring T Grids ceiling.
NB: On application - contact Whitcroft Technical.
- DTFA Elite (600x600) can be used with SAS 120 (D) type of Spring T Grids ceiling.
NB: Additional ceiling integration frame required.
- DTFA Elite (300x1200 & 600x1200)
DTFA Theatre can be used with SAS 120 (D) type of Spring T Grids ceiling.
NB: Additional ceiling integration frame required. Grid will need setting up specifically for the luminaires.
- DTFU (600x600) can be used with SAS 120 (D) type of Spring T Grids ceiling.
NB: Additional ceiling integration frame required.
- DTFU (300x1200 & 600x1200) can be used with SAS 120 (D) type of Spring T Grids ceiling.
NB: Additional ceiling integration frame required. Grid will need setting up specifically for the luminaires.
- HDU LED (Modular) can be used with SAS 120 (D) type of Spring T Grids ceiling.
NB: Additional ceiling integration frame required.
- Hygiene LED can be used with SAS 120 (D) type of Spring T Grids ceiling.
NB: Additional ceiling integration frame required.
- Lister2 can be used with SAS 120 (D) type of Spring T Grids ceiling.
NB: Additional ceiling integration frame required.

- Lister can be used with SAS 120 (D) type of Spring T Grids ceiling.
NB: Additional ceiling integration frame required.

Spring T Grids - Armstrong T-Clip F (D)

Integration details diagram for **Spring T Grids - Armstrong T-Clip F (D)** type ceiling.

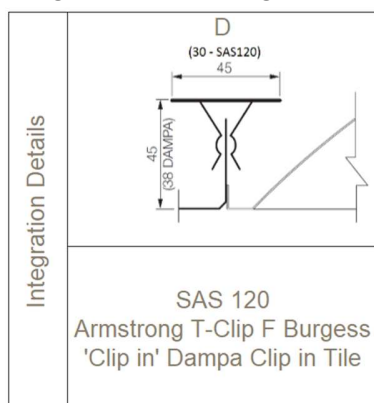

- Cascade Flex (ST)
 Vitality & Tunable White can be used with Armstrong T-Clip F (D) type of Spring T Grids ceiling.
- CityEdge can be used with Armstrong T-Clip F (D) type of Spring T Grids ceiling.
 NB: On application - contact Whitecroft Technical.
- DTFA Elite (600x600) can be used with Armstrong T-Clip F (D) type of Spring T Grids ceiling. NB:
 Additional ceiling integration frame required.
- DTFA Elite (300x1200 & 600x1200)
 DTFA Theatre can be used with Armstrong T-Clip F (D) type of Spring T Grids ceiling.
 NB: Additional ceiling integration frame required. Grid will need setting up specifically for the
 luminaires.
- DTFU (600x600) can be used with Armstrong T-Clip F (D) type of Spring T Grids ceiling.
 NB: Additional ceiling integration frame required.
- DTFU (300x1200 & 600x1200) can be used with Armstrong T-Clip F (D) type of Spring T Grids
 ceiling. NB: Additional ceiling integration frame required. Grid will need setting up specifically for
 the luminaires.
- HDU LED (Modular) can be used with Armstrong T-Clip F (D) type of Spring T Grids ceiling.
 NB: Additional ceiling integration frame required.
- Hygiene LED can be used with Armstrong T-Clip F (D) type of Spring T Grids ceiling.
 NB: Additional ceiling integration frame required.
- Lister2 can be used with Armstrong T-Clip F (D) type of Spring T Grids ceiling.

NB: Additional ceiling integration frame required.

- Lister can be used with Armstrong T-Clip F (D) type of Spring T Grids ceiling.
NB: Additional ceiling integration frame required.

Spring T Grids - Burgess Clip in (D)

Integration details diagram for **Spring T Grids - Burgess Clip in (D)** type ceiling.

- Cascade Flex (ST)

Vitality & Tunable White can be used with Burgess Clip in (D) type of Spring T Grids ceiling.
- CityEdge can be used with Burgess Clip in (D) type of Spring T Grids ceiling.

NB: On application - contact Whitecroft Technical. Whilst compatibility of fit is assured, it is the responsibility of installer to ensure ceiling structure is suitable for integration and weight bearing load.

Secondary suspensions (supplied by others) may be required when taking this into account. Please contact Whitecroft Technical Department for any application not shown Refer to the product webpage for specific part number to fit each ceiling type.
- DTFA Elite (600x600) can be used with Burgess Clip in (D) type of Spring T Grids ceiling.

NB: Additional ceiling integration frame required. Whilst compatibility of fit is assured, it is the responsibility of installer to ensure ceiling structure is suitable for integration and weight bearing load.

Secondary suspensions (supplied by others) may be required when taking this into account. Please contact Whitecroft Technical Department for any application not shown Refer to the product webpage for specific part number to fit each ceiling type.
- DTFA Elite (300x1200 & 600x1200)

DTFA Theatre can be used with Burgess Clip in (D) type of Spring T Grids ceiling.

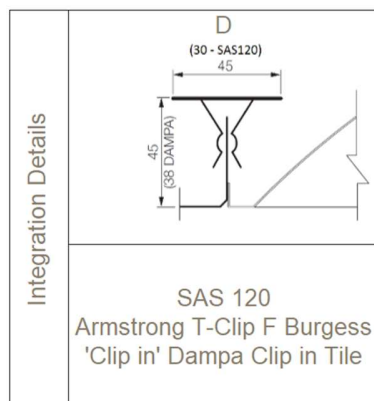

NB: Additional ceiling integration frame required. Grid will need setting up specifically for the luminaires. Whilst compatibility of fit is assured, it is the responsibility of installer to ensure ceiling structure is suitable for integration and weight bearing load.

Secondary suspensions (supplied by others) may be required when taking this into account. Please contact Whitecroft Technical Department for any application not shown Refer to the product webpage for specific part number to fit each ceiling type.

- DTFU (600x600) can be used with Burgess Clip in (D) type of Spring T Grids ceiling.
NB: Additional ceiling integration frame required. Whilst compatibility of fit is assured, it is the responsibility of installer to ensure ceiling structure is suitable for integration and weight bearing load.
Secondary suspensions (supplied by others) may be required when taking this into account.
Please contact Whitecroft Technical Department for any application not shown Refer to the product webpage for specific part number to fit each ceiling type.
- DTFU (300x1200 & 600x1200) can be used with Burgess Clip in (D) type of Spring T Grids ceiling.
NB: Additional ceiling integration frame required. Grid will need setting up specifically for the luminaires. Whilst compatibility of fit is assured, it is the responsibility of installer to ensure ceiling structure is suitable for integration and weight bearing load.
Secondary suspensions (supplied by others) may be required when taking this into account.
Please contact Whitecroft Technical Department for any application not shown Refer to the product webpage for specific part number to fit each ceiling type.
- HDU LED (Modular) can be used with Burgess Clip in (D) type of Spring T Grids ceiling.
NB: Additional ceiling integration frame required. Whilst compatibility of fit is assured, it is the responsibility of installer to ensure ceiling structure is suitable for integration and weight bearing load.
Secondary suspensions (supplied by others) may be required when taking this into account.
Please contact Whitecroft Technical Department for any application not shown Refer to the product webpage for specific part number to fit each ceiling type.
- Hygiene LED can be used with Burgess Clip in (D) type of Spring T Grids ceiling. NB: Additional ceiling integration frame required. Whilst compatibility of fit is assured, it is the responsibility of installer to ensure ceiling structure is suitable for integration and weight bearing load.
Secondary suspensions (supplied by others) may be required when taking this into account.
Please contact Whitecroft Technical Department for any application not shown Refer to the product webpage for specific part number to fit each ceiling type
- Lister2 can be used with Burgess Clip in (D) type of Spring T Grids ceiling. NB: Additional ceiling integration frame required. Whilst compatibility of fit is assured, it is the responsibility of installer to ensure ceiling structure is suitable for integration and weight bearing load.
Secondary suspensions (supplied by others) may be required when taking this into account.
Please contact Whitecroft Technical Department for any application not shown Refer to the product webpage for specific part number to fit each ceiling type
- Lister can be used with Burgess Clip in (D) type of Spring T Grids ceiling. NB: Additional ceiling integration frame required. Whilst compatibility of fit is assured, it is the responsibility of installer to ensure ceiling structure is suitable for integration and weight bearing load.
Secondary suspensions (supplied by others) may be required when taking this into account.
Please contact Whitecroft Technical Department for any application not shown Refer to the product webpage for specific part number to fit each ceiling type.

Spring T Grids - Dampa Clip in (D)

Integration details diagram for **Spring T Grids - Dampa Clip in (D)** type ceiling.

- Cascade Flex (ST)**

Vitality & Tunable White can be used with Dampa Clip in (D) type of Spring T Grids ceiling. NB: Additional support bracket kit required. Whilst compatibility of fit is assured, it is the responsibility of installer to ensure ceiling structure is suitable for integration and weight bearing load. Secondary suspensions (supplied by others) may be required when taking this into account. Please contact Whitecroft Technical Department for any application not shown Refer to the product webpage for specific part number to fit each ceiling type.
- DTFA Elite (600x600)** can be used with Dampa Clip in (D) type of Spring T Grids ceiling. NB: Additional ceiling integration frame required. Whilst compatibility of fit is assured, it is the responsibility of installer to ensure ceiling structure is suitable for integration and weight bearing load. Secondary suspensions (supplied by others) may be required when taking this into account. Please contact Whitecroft Technical Department for any application not shown Refer to the product webpage for specific part number to fit each ceiling type.
- DTFA Elite (300x1200 & 600x1200)**

DTFA Theatre can be used with Dampa Clip in (D) type of Spring T Grids ceiling. NB: Additional ceiling integration frame required. Grid will need setting up specifically for the luminaires. Whilst compatibility of fit is assured, it is the responsibility of installer to ensure ceiling structure is suitable for integration and weight bearing load. Secondary suspensions (supplied by others) may be required when taking this into account. Please contact Whitecroft Technical Department for any application not shown Refer to the product webpage for specific part number to fit each ceiling type.
- DTFU (600x600)** can be used with Dampa Clip in (D) type of Spring T Grids ceiling.

NB: Additional ceiling integration frame required. Whilst compatibility of fit is assured, it is the responsibility of installer to ensure ceiling structure is suitable for integration and weight bearing load.

Secondary suspensions (supplied by others) may be required when taking this into account. Please contact Whitecroft Technical Department for any application not shown Refer to the product webpage for specific part number to fit each ceiling type.

- DTFU (300x1200 & 600x1200) can be used with Dampa Clip in (D) type of Spring T Grids ceiling.
NB: Additional ceiling integration frame required. Grid will need setting up specifically for the luminaires. Whilst compatibility of fit is assured, it is the responsibility of installer to ensure ceiling structure is suitable for integration and weight bearing load.
Secondary suspensions (supplied by others) may be required when taking this into account. Please contact Whitecroft Technical Department for any application not shown Refer to the product webpage for specific part number to fit each ceiling type.
- HDU LED (Modular) can be used with Dampa Clip in (D) type of Spring T Grids ceiling.
NB: Additional ceiling integration frame required. Whilst compatibility of fit is assured, it is the responsibility of installer to ensure ceiling structure is suitable for integration and weight bearing load.
Secondary suspensions (supplied by others) may be required when taking this into account. Please contact Whitecroft Technical Department for any application not shown Refer to the product webpage for specific part number to fit each ceiling type.
- Hygiene LED can be used with Dampa Clip in (D) type of Spring T Grids ceiling.
NB: Additional support bracket kit required. Additional ceiling integration frame required. Whilst compatibility of fit is assured, it is the responsibility of installer to ensure ceiling structure is suitable for integration and weight bearing load.
Secondary suspensions (supplied by others) may be required when taking this into account. Please contact Whitecroft Technical Department for any application not shown Refer to the product webpage for specific part number to fit each ceiling type.
- Lister2 can be used with Dampa Clip in (D) type of Spring T Grids ceiling.
NB: Additional ceiling integration frame required. Whilst compatibility of fit is assured, it is the responsibility of installer to ensure ceiling structure is suitable for integration and weight bearing load.
Secondary suspensions (supplied by others) may be required when taking this into account. Please contact Whitecroft Technical Department for any application not shown Refer to the product webpage for specific part number to fit each ceiling type.
- Lister can be used with Dampa Clip in (D) type of Spring T Grids ceiling.
NB: Additional support bracket kit required. Additional ceiling integration frame required. Whilst compatibility of fit is assured, it is the responsibility of installer to ensure ceiling structure is

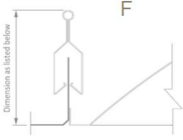

suitable for integration and weight bearing load.

Secondary suspensions (supplied by others) may be required when taking this into account.

Please contact Whitecroft Technical Department for any application not shown Refer to the product webpage for specific part number to fit each ceiling type.

Spring T Grids - Armstrong Q-Clip F Armstrong R-Clip F (F)

Integration details diagram for **Spring T Grids - Armstrong Q-Clip F Armstrong R-Clip F (F)** type ceiling.

Integration Details	 SAS 150 Spring T (67mm) Armstrong S-Clip F (50mm) Armstrong Q-Clip F (60mm) Armstrong R-Clip F (60mm) Burgess A-Bar Spring T (54mm)
---------------------	--

- Cascade Flex (ST)**
 Vitality & Tunable White can be used with Armstrong Q-Clip F Armstrong R-Clip F (F) type of Spring T Grids ceiling.
 NB: Additional support bracket kit required. Whilst compatibility of fit is assured, it is the responsibility of installer to ensure ceiling structure is suitable for integration and weight bearing load.
 Secondary suspensions (supplied by others) may be required when taking this into account.
 Please contact Whitecroft Technical Department for any application not shown Refer to the product webpage for specific part number to fit each ceiling type.
- DTFA Elite (600x600)** can be used with Armstrong Q-Clip F Armstrong R-Clip F (F) type of Spring T Grids ceiling.
 NB: Additional ceiling integration frame required. Whilst compatibility of fit is assured, it is the responsibility of installer to ensure ceiling structure is suitable for integration and weight bearing load.
 Secondary suspensions (supplied by others) may be required when taking this into account.
 Please contact Whitecroft Technical Department for any application not shown Refer to the product webpage for specific part number to fit each ceiling type.
- DTFA Elite (300x1200 & 600x1200)**
 DTFA Theatre can be used with Armstrong Q-Clip F Armstrong R-Clip F (F) type of Spring T Grids ceiling.
 NB: Additional ceiling integration frame required. Grid will need setting up specifically for the luminaires. Whilst compatibility of fit is assured, it is the responsibility of installer to ensure ceiling structure is suitable for integration and weight bearing load.
 Secondary suspensions (supplied by others) may be required when taking this into account.
 Please contact Whitecroft Technical Department for any application not shown Refer to the product webpage for specific part number to fit each ceiling type.

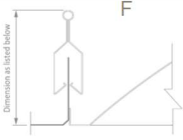

- DTFU (600x600) can be used with Armstrong Q-Clip F Armstrong R-Clip F (F) type of Spring T Grids ceiling.
NB: Additional ceiling integration frame required. Whilst compatibility of fit is assured, it is the responsibility of installer to ensure ceiling structure is suitable for integration and weight bearing load.
Secondary suspensions (supplied by others) may be required when taking this into account.
Please contact Whitecroft Technical Department for any application not shown Refer to the product webpage for specific part number to fit each ceiling type.
- DTFU (300x1200 & 600x1200) can be used with Armstrong Q-Clip F Armstrong R-Clip F (F) type of Spring T Grids ceiling.
NB: Additional ceiling integration frame required. Grid will need setting up specifically for the luminaires. Whilst compatibility of fit is assured, it is the responsibility of installer to ensure ceiling structure is suitable for integration and weight bearing load.
Secondary suspensions (supplied by others) may be required when taking this into account.

Spring T Grids - Burgess 'A' Bar (F)

Integration details diagram for **Spring T Grids - Burgess 'A' Bar (F)** type ceiling.

Integration Details	
	SAS 150 Spring T (67mm) Armstrong S-Clip F (50mm) Armstrong Q-Clip F (60mm) Armstrong R-Clip F (60mm) Burgess A-Bar Spring T (54mm)

- Cascade Flex (ST)**
 Vitality & Tunable White can be used with Burgess 'A' Bar (F) type of Spring T Grids ceiling. NB: Additional support bracket kit required. Whilst compatibility of fit is assured, it is the responsibility of installer to ensure ceiling structure is suitable for integration and weight bearing load. Secondary suspensions (supplied by others) may be required when taking this into account. Please contact Whitecroft Technical Department for any application not shown Refer to the product webpage for specific part number to fit each ceiling type.
- DTFA Elite (600x600)** can be used with Burgess 'A' Bar (F) type of Spring T Grids ceiling.
 NB: Additional ceiling integration frame required. Whilst compatibility of fit is assured, it is the responsibility of installer to ensure ceiling structure is suitable for integration and weight bearing load.
 Secondary suspensions (supplied by others) may be required when taking this into account. Please contact Whitecroft Technical Department for any application not shown Refer to the product webpage for specific part number to fit each ceiling type.
- DTFA Elite (300x1200 & 600x1200)**
 DTFA Theatre can be used with Burgess 'A' Bar (F) type of Spring T Grids ceiling.
 NB: Additional ceiling integration frame required. Grid will need setting up specifically for the luminaires. Whilst compatibility of fit is assured, it is the responsibility of installer to ensure ceiling structure is suitable for integration and weight bearing load.
 Secondary suspensions (supplied by others) may be required when taking this into account. Please contact Whitecroft Technical Department for any application not shown Refer to the product webpage for specific part number to fit each ceiling type.
- DTFU (600x600)** can be used with Burgess 'A' Bar (F) type of Spring T Grids ceiling.
 NB: Additional ceiling integration frame required. Whilst compatibility of fit is assured, it is the responsibility of installer to ensure ceiling structure is suitable for integration and weight bearing load.

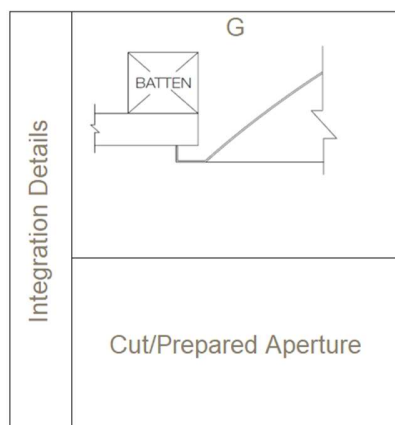

Secondary suspensions (supplied by others) may be required when taking this into account. Please contact Whitecroft Technical Department for any application not shown Refer to the product webpage for specific part number to fit each ceiling type.

- DTFU (300x1200 & 600x1200) can be used with Burgess 'A' Bar (F) type of Spring T Grids ceiling.
NB: Additional ceiling integration frame required. Grid will need setting up specifically for the luminaires. Whilst compatibility of fit is assured, it is the responsibility of installer to ensure ceiling structure is suitable for integration and weight bearing load.
Secondary suspensions (supplied by others) may be required when taking this into account. Please contact Whitecroft Technical Department for any application not shown Refer to the product webpage for specific part number to fit each ceiling type.
- HDU LED (Modular) can be used with Burgess 'A' Bar (F) type of Spring T Grids ceiling.
NB: Additional ceiling integration frame required. Whilst compatibility of fit is assured, it is the responsibility of installer to ensure ceiling structure is suitable for integration and weight bearing load.
Secondary suspensions (supplied by others) may be required when taking this into account. Please contact Whitecroft Technical Department for any application not shown Refer to the product webpage for specific part number to fit each ceiling type.
- Hygiene LED can be used with Burgess 'A' Bar (F) type of Spring T Grids ceiling.
NB: Additional support bracket kit required. Additional ceiling integration frame required. Whilst compatibility of fit is assured, it is the responsibility of installer to ensure ceiling structure is suitable for integration and weight bearing load.
Secondary suspensions (supplied by others) may be required when taking this into account. Please contact Whitecroft Technical Department for any application not shown Refer to the product webpage for specific part number to fit each ceiling type.
- Lister2 can be used with Burgess 'A' Bar (F) type of Spring T Grids ceiling.
NB: Additional ceiling integration frame required. Whilst compatibility of fit is assured, it is the responsibility of installer to ensure ceiling structure is suitable for integration and weight bearing load.
Secondary suspensions (supplied by others) may be required when taking this into account. Please contact Whitecroft Technical Department for any application not shown Refer to the product webpage for specific part number to fit each ceiling type.
- Lister can be used with Burgess 'A' Bar (F) type of Spring T Grids ceiling.
NB: Additional support bracket kit required. Additional ceiling integration frame required. Whilst compatibility of fit is assured, it is the responsibility of installer to ensure ceiling structure is suitable for integration and weight bearing load.
Secondary suspensions (supplied by others) may be required when taking this into account.

Please contact Whitecroft Technical Department for any application not shown Refer to the product webpage for specific part number to fit each ceiling type.

Plasterboard - Prepared Aperture (G)

Integration details diagram for **Plasterboard - Prepared Aperture (G)** type ceiling.

- Avenue/Avenue Metro (recessed) can be used with Prepared Aperture (G) type of Plasterboard ceiling.
- Avenue Micro (recessed) can be used with Prepared Aperture (G) type of Plasterboard ceiling.
- Cascade Flex (XT)
Including Vitality & Tunable White can be used with Prepared Aperture (G) type of Plasterboard ceiling.
NB: Additional ceiling integration frame required. Whilst compatibility of fit is assured, it is the responsibility of installer to ensure ceiling structure is suitable for integration and weight bearing load.
Secondary suspensions (supplied by others) may be required when taking this into account.
Please contact Whitecroft Technical Department for any application not shown Refer to the product webpage for specific part number to fit each ceiling type.
- DTFN Elite/Theatre can be used with Prepared Aperture (G) type of Plasterboard ceiling.
- DTFU (600x600) can be used with Prepared Aperture (G) type of Plasterboard ceiling.
- DTFU (300x1200 & 600x1200) can be used with Prepared Aperture (G) type of Plasterboard ceiling.
- HDU LED (Prepared Aperture) can be used with Prepared Aperture (G) type of Plasterboard ceiling.
- Helm can be used with Prepared Aperture (G) type of Plasterboard ceiling.
NB: Additional support bracket kit required. Whilst compatibility of fit is assured, it is the responsibility of installer to ensure ceiling structure is suitable for integration and weight bearing load.

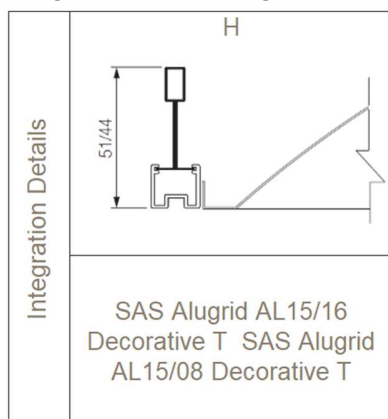

Secondary suspensions (supplied by others) may be required when taking this into account. Please contact Whitecroft Technical Department for any application not shown Refer to the product webpage for specific part number to fit each ceiling type.

- Hygiene LED can be used with Prepared Aperture (G) type of Plasterboard ceiling.
NB: Additional support bracket kit required. Additional ceiling integration frame required. Whilst compatibility of fit is assured, it is the responsibility of installer to ensure ceiling structure is suitable for integration and weight bearing load.
Secondary suspensions (supplied by others) may be required when taking this into account. Please contact Whitecroft Technical Department for any application not shown Refer to the product webpage for specific part number to fit each ceiling type.
- Life P LED can be used with Prepared Aperture (G) type of Plasterboard ceiling.
NB: Additional ceiling integration frame required. Whilst compatibility of fit is assured, it is the responsibility of installer to ensure ceiling structure is suitable for integration and weight bearing load.
Secondary suspensions (supplied by others) may be required when taking this into account. Please contact Whitecroft Technical Department for any application not shown Refer to the product webpage for specific part number to fit each ceiling type.
- Lister2 can be used with Prepared Aperture (G) type of Plasterboard ceiling.
- Lister can be used with Prepared Aperture (G) type of Plasterboard ceiling.
NB: Additional support bracket kit required. Whilst compatibility of fit is assured, it is the responsibility of installer to ensure ceiling structure is suitable for integration and weight bearing load.
Secondary suspensions (supplied by others) may be required when taking this into account. Please contact Whitecroft Technical Department for any application not shown Refer to the product webpage for specific part number to fit each ceiling type.
- Tegan
Including Tunable White can be used with Prepared Aperture (G) type of Plasterboard ceiling. NB: Additional ceiling integration frame required. Whilst compatibility of fit is assured, it is the responsibility of installer to ensure ceiling structure is suitable for integration and weight bearing load.
Secondary suspensions (supplied by others) may be required when taking this into account. Please contact Whitecroft Technical Department for any application not shown Refer to the product webpage for specific part number to fit each ceiling type.
- Tegan 2 can be used with Prepared Aperture (G) type of Plasterboard ceiling. NB: Additional ceiling integration frame required. Whilst compatibility of fit is assured, it is the responsibility of installer to ensure ceiling structure is suitable for integration and weight bearing load.

Secondary suspensions (supplied by others) may be required when taking this into account. Please contact Whitecroft Technical Department for any application not shown Refer to the product webpage for specific part number to fit each ceiling type.

Alugrids - SAS Alugrid-Q 15/16, SAS Alugrid-P 15/16 (H)

Integration details diagram for **Alugrids - SAS Alugrid-Q 15/16, SAS Alugrid-P 15/16 (H)** type ceiling.

- Cascade Flex (XT)

Including Vitality & Tunable White can be used with SAS Alugrid-Q 15/16 SAS Alugrid-P 15/16 (H) type of Alugrids ceiling.
- CityEdge can be used with SAS Alugrid-Q 15/16, SAS Alugrid-P 15/16 (H) type of Alugrids ceiling.

NB: On application - contact Whitecroft Technical. Whilst compatibility of fit is assured, it is the responsibility of installer to ensure ceiling structure is suitable for integration and weight bearing load.

Secondary suspensions (supplied by others) may be required when taking this into account. Please contact Whitecroft Technical Department for any application not shown Refer to the product webpage for specific part number to fit each ceiling type.
- DTFA Elite (600x600) can be used with SAS Alugrid-Q 15/16, SAS Alugrid-P 15/16 (H) type of Alugrids ceiling.

NB: Must be Alugrid-P type ceiling - contact Whitecroft Technical for application. Whilst compatibility of fit is assured, it is the responsibility of installer to ensure ceiling structure is suitable for integration and weight bearing load.

Secondary suspensions (supplied by others) may be required when taking this into account. Please contact Whitecroft Technical Department for any application not shown Refer to the product webpage for specific part number to fit each ceiling type.
- DTFA Elite (300x1200 & 600x1200)

DTFA Theatre can be used with SAS Alugrid-Q 15/16, SAS Alugrid-P 15/16 (H) type of Alugrids ceiling.

NB: Must be Alugrid-P type ceiling - contact Whitecroft Technical for application. Whilst compatibility of fit is assured, it is the responsibility of installer to ensure ceiling structure is suitable for integration and weight bearing load.

Secondary suspensions (supplied by others) may be required when taking this into account.

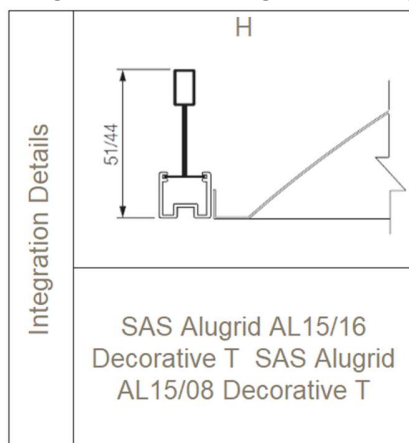

Please contact Whitecroft Technical Department for any application not shown Refer to the product webpage for specific part number to fit each ceiling type.

- DTFU (600x600) can be used with SAS Alugrid-Q 15/16, SAS Alugrid-P 15/16 (H) type of Alugrids ceiling.
NB: Must be Alugrid-P type ceiling - contact Whitecroft Technical for application. Whilst compatibility of fit is assured, it is the responsibility of installer to ensure ceiling structure is suitable for integration and weight bearing load.
Secondary suspensions (supplied by others) may be required when taking this into account.
Please contact Whitecroft Technical Department for any application not shown Refer to the product webpage for specific part number to fit each ceiling type.
- DTFU (300x1200 & 600x1200) can be used with SAS Alugrid-Q 15/16, SAS Alugrid-P 15/16 (H) type of Alugrids ceiling.
NB: Must be Alugrid-P type ceiling - contact Whitecroft Technical for application. Whilst compatibility of fit is assured, it is the responsibility of installer to ensure ceiling structure is suitable for integration and weight bearing load.
Secondary suspensions (supplied by others) may be required when taking this into account.
Please contact Whitecroft Technical Department for any application not shown Refer to the product webpage for specific part number to fit each ceiling type.
- HDU LED (Modular) can be used with SAS Alugrid-Q 15/16, SAS Alugrid-P 15/16 (H) type of Alugrids ceiling.
NB: Must be Alugrid-P type ceiling - contact Whitecroft Technical for application. Whilst compatibility of fit is assured, it is the responsibility of installer to ensure ceiling structure is suitable for integration and weight bearing load.
Secondary suspensions (supplied by others) may be required when taking this into account.
Please contact Whitecroft Technical Department for any application not shown Refer to the product webpage for specific part number to fit each ceiling type.
- Lister2 can be used with SAS Alugrid-Q 15/16, SAS Alugrid-P 15/16 (H) type of Alugrids ceiling.
NB: Must be Alugrid-P type ceiling - contact Whitecroft Technical for application. Whilst compatibility of fit is assured, it is the responsibility of installer to ensure ceiling structure is suitable for integration and weight bearing load.
Secondary suspensions (supplied by others) may be required when taking this into account.

- Lister can be used with SAS Alugrid-Q 15/08, SAS Alugrid-P 15/08 (H) type of Alugrids ceiling.
NB: Must be Alugrid-P type ceiling - contact Whitecroft Technical for application.
Additional support bracket kit required.

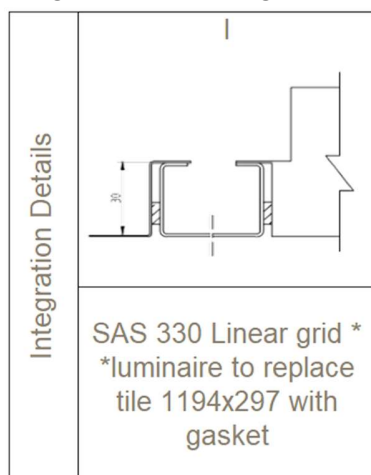

Whilst compatibility of fit is assured, it is the responsibility of installer to ensure ceiling structure is suitable for integration and weight bearing load.

Secondary suspensions (supplied by others) may be required when taking this into account.

Please contact Whitecroft Technical Department for any application not shown Refer to the product webpage for specific part number to fit each ceiling type.

Linear grids - SAS 330 (I)

Integration details diagram for **Linear grids - SAS 330 (I)** type ceiling.

- Cascade Flex (1200x300)**

Including Vitality & Tunable White can be used with SAS 330 (I) type of Linear grids ceiling.

NB: 300x1200 version only - tile (c/w gasket) replacement only. Whilst compatibility of fit is assured, it is the responsibility of installer to ensure ceiling structure is suitable for integration and weight bearing load.

Secondary suspensions (supplied by others) may be required when taking this into account. Please contact Whitecroft Technical Department for any application not shown Refer to the product webpage for specific part number to fit each ceiling type.
- CityEdge** can be used with SAS 330 (I) type of Linear grids ceiling.

NB: 300x1200 version only - tile (c/w gasket) replacement only. Whilst compatibility of fit is assured, it is the responsibility of installer to ensure ceiling structure is suitable for integration and weight bearing load.

Secondary suspensions (supplied by others) may be required when taking this into account. Please contact Whitecroft Technical Department for any application not shown Refer to the product webpage for specific part number to fit each ceiling type.
- Cityline** Including Tunable White can be used with SAS 330 (I) type of Linear grids ceiling.

NB: 300x1200 version only - tile (c/w gasket) replacement only. Whilst compatibility of fit is assured, it is the responsibility of installer to ensure ceiling structure is suitable for integration and weight bearing load.

Secondary suspensions (supplied by others) may be required when taking this into account. Please contact Whitecroft Technical Department for any application not shown Refer to the product webpage for specific part number to fit each ceiling type.

- Rink can be used with SAS 330 (I) type of Linear grids ceiling.
NB: 300x1200 version only - tile (c/w gasket) replacement only. Whilst compatibility of fit is assured, it is the responsibility of installer to ensure ceiling structure is suitable for integration and weight bearing load.
Secondary suspensions (supplied by others) may be required when taking this into account.
Please contact Whitecroft Technical Department for any application not shown Refer to the product webpage for specific part number to fit each ceiling type.
