

Cascade Retrofit - LED cartridge

Overview

Upgrade Cascade Louver with the Cascade LED cartridge for energy and material savings compared to Cascade T5 lamps. Cascade can also be upgraded through a point-for-point replacement.

- Up to 1.2x increased energy efficiency compared to T5 lamps
- Up to 3.5kg of material saved from landfill

Exact savings are subject to project specifics, variants and optics.

All Custom Made solutions are subject to commercial approval and applicable minimum order quantities.

For more information, contact one of our [Account Managers](#) or [Commercial Team](#) directly or [email us](#) with any questions or enquires. We would be happy to answer your questions and set up a meeting with you at one of our [offices](#).

Why Retrofit?

Our retrofit solutions offer point-for-point replacement and retrofit LED cartridge upgrades, reducing embodied and operational carbon.

- Derisk your upgrade
- Simple, easy installation
- Upgrade to the latest LED technology
- Designed and manufactured with a circular approach to futureproof for future upgrades
- UKCA-certified replacement parts and luminaires
- Compliance guaranteed
- 5-year warranty
- Compatible with all controls (including DSI and DALI)
- Retain IP-rating

Retrofit options

- T5 to LED LED cartridge replacement - retain ceiling aperture while reducing embodied and operational carbon. No site modifications required beyond the required upgrade.
 - Point-for-point upgrades are also available.
 - Optic upgrades - subject to minimum order quantities.
