Overview

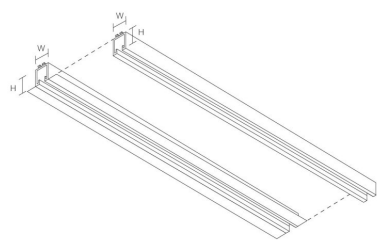

Lyne Track offers a slim, architectural backbone for precise lighting design and integration with our Lyne range and track mounted luminaires. Available in black or white and 1m, 2m, or 3m lengths, the system supports surface, suspended, or recessed mounting to suit any environment.

With integrated DALI control and a versatile range of feeds and connectors, lighting designers and specifiers gain total freedom to create complex, adaptable layouts. It is a practical, future-proof solution that allows fixtures to be repositioned easily as your space evolves.

Body

- 7 core track; 3 live circuits, 2 DALI lines, neutral and earth
- Extruded aluminium body rated to IP20
- Available in two colour options; white RAL 9010 or black RAL 9005 finish
- Available in either 1m, 2m, or 3m lengths
- Compatible with Lyne luminaires, Accent Track, Mirage Track, Florin Track and Organic Response® Track
- Maximum 16A rating
- Different feeds for different power source locations and a comprehensive range of accessories are available to give design freedom; including Surface Mount & Suspension Kits, 'T', 'L' and 'X' connectors, plus end caps and covers for the finishing touches
- Dedicated Track Cutting Tool available to ensure neat onsite cutting
